## PROFILE

Detail-oriented **M.Tech (IoT) student** with a strong foundation in programming, problem-solving, and software development. Passionate about **game development**, with hands-on experience in projects, open-source contributions, and collaborative tech environments.

## EDUCATION

**Devi Ahilya Vishwavidyalaya (DAVV)** — Indore, India

- **M.Tech – Internet of Things (IoT)**
- 2024 – 2029
- Current CGPA: **6.15** / 10.0 (through Semester 3)

**Kendriya Vidyalaya No. 1** — Chandimandir Cantt

- **Senior Secondary (12th), Science (PCM)**
- 2022 – 2023
- Percentage: **84%**

**Kendriya Vidyalaya No. 1 —** Chandimandir Cantt

- **Secondary (10th)**
- 2020 – 2021
- Percentage**: 92%**

## SKILLS

**Technical:** C++, SQL, Python, Game Development

**Tools:** Unity Engine, Git & GitHub, Visual Studio, MySQL

## EXPERIENCE

**Freelance & Open-Source Contributions** 04/25 – Present

Remote

- Developed small freelance software projects for clients, focusing on automation and productivity tools
- Contributed to open-source Unity projects, fixing bugs and adding features.
- Developed multiple **indie games** using Unity and C#.
- Implemented core gameplay mechanics, UI systems, and logic-driven features.

**Technical Workshops**

- Attended IoT and software development workshops, gaining hands-on experience in embedded systems and coding competitions.

## PROJECTS

**AI Talking Therapist – Smart India Hackathon (SIH) 2025**

Team Project

- Designed and developed an **AI-based conversational therapist** to provide mental health support through natural language interaction.
- Built the **front-end in Unity**, creating an interactive and user-friendly conversational interface.
- Integrated **Google Gemini API** at the **back-end** to enable real-time AI-driven responses and natural language conversations.

**Game Development Projects**

- Developed multiple indie game projects using Unity and C#.
- Participated in game jams, creating games under tight deadlines with innovative mechanics.
- Collaborated with random online teams in game jams, improving teamwork, leadership, and communication skills.
